PATH Intl offers three levels of Instructor Certification for therapeutic riding: Registered, Advanced and Master. This workshop/certification is for the Registered Level. In order to become a PATH Intl Registered Instructor, you must successfully complete two phases of the certification process.

PHASE ONE

Please take note of the following changes to the PATH Intl. Registered Certification Program processes went into effect January 1, 2017.

- The online CAT Course and Exam has been replaced by the Standards Course and Exam. PATH Intl. will handle enforcement of what exam will be accepted for each candidate to complete Phase I and receive their IT Letter. •
- The Documentation of Teaching Hours form now requires that a certified professional verify that the candidate has practiced emergency response procedures, including demonstration of an emergency dismount. If all or part of a candidate's teaching hours took place BEFORE January 1, they are not required to supply the updated Documentation of Teaching Hours form. If all of a candidate's teaching hours took place AFTER January 1, they ARE required to supply the updated Documentation of Teaching Hours form.

A complete description and application form are contained in the Registered Certification Application Booklet available through PATH Intl. at www.pathintl.org or (800) 369-7433. Any questions that you have regarding Phase One should be directed to the PATH Intl. office.

PHASE TWO

- Complete 25 hours of teaching group mounted therapeutic riding lessons under the supervision/mentorship of a PATH Intl certified instructor.
- Attend a Registered Instructor On-Site Workshop. You must attend a workshop PRIOR to the certification component. The workshop is valid for 2 years and may be taken separately from the certification.
- Successfully complete a Registered Instructor On-Site Certification. The certification consists of successfully completing a riding pattern (note: **Reins of Life has a candidate weight limit of 225lbs**) and teaching a 20-minute two-student class.
